EXPERIENCE

Goldman Sachs, Remote — Summer Intern

June 2021 - July 2021

Worked on frontend for the first half and backend for the second half. My internship was based on streamlining notifications through emails. I was exposed to SpringBoot, Rabbitmq, React, different types of testing, and most importantly agile development.

EDUCATION

Manipal Institute of Technology, Mangalore — Btech in Computer Science

MAY 2018 - Present

9.5 CGPA (Current)

Selaqui International School, Dehradun — Higher Secondary

APRIL 2015 - MAY 2017

86.67% (class XII)

Delhi Public School, Ruby Park, Kolkata — Secondary

MARCH 2003 - MARCH 2015

9.6 GPA (class X)

PROJECTS

Timely – A project management tool, to help a team with agile development. Users can be managers or associates. Managers can crud projects and assign associates to them. Associates can crud tasks inside projects they have been assigned to.

Events – A mobile app where users can create events and delete events owned by them. Users can also view events by other users and decide to attend/back off from them. Sign-in/Sign-up is based on JWT authentication.
